THANKSGIVING DAY. One good thing about this day is that it

time to work, and what few pleasures we take, we bolt. An addition to the sum of our holidays is therefore a desirable thing. some of the wise ones seem to think that By a happy desuctude of feeling the day Christmas. That is the feast of the year Fasserr is on hand to smooth things over. throughout the land. But Thanksgiving is well celebrated, too. The attendance at the matinees and the football game will giving spirit, however, in the one as in the another Thanksgiving Day.

Another pleasant feature of this day i its domestic character. The occasion is one which has its focus at the family table, where papa carves the nicely browned bird and mamma watches the olive branches to see that they don't overload on turkey, cranberry sauce and hot mince-pie. Peace good appetite and content should reign supreme. May they wait upon you all.

One reflection should rise with the grateful aroms of the smoking viands. It is the thought that joy can be shed upon many a lowly household by bestowing some of these creature comforts there. Think of the happiness you can give at so little expense and trouble, and ask yourself if to give it is not exceeding good.

Think also of the bonny tree which the readers of The Evening World are going axed." to rear for the children of the poor at Christmas time. Let that have place in your thoughts and give to that also. This is not taxing yourselves too much. Such deeds enlarge the heart.

QUIET EXECUTIONS.

Warden BRUSH will interpret the law which imposes a measure of secrecy in regard to executions with the most conscientious rigor. He retuses to disclose of insinuate the hour or day when the execu tion will take place, and he has denied a mission to representatives of the press.

No fault can be found with the Warden for acting severely within the limits of the law, nor even for a reading of it which to some may seem exaggerated. He can do nothing else as an honest official than act according to his understanding of the same. It is the law which is open to censure rather than he who executes it to the letter.

The vigilance and earnest prevision of Warden BRUSH will secure a thorough test of electricity as a legal death-dealing agency. If the electricfaction of Wood is a repetition of the Kemmler horror the Spring. But, though the days are shorter and the winds do are to join the procession of household belong the days are shorter and the winds do ings which in many houses is constantly moving from parior to garret they may as well be dignation. That is all.

FOR THIS, THANKS.

A timely topic of the day is the succe which is now almost promised to the novel surgical experiment of patching up the de tect in a boy's leg by the insertion of an inch of the bone of a dog. Both JOHNNIE GETHIUS and his dog Yip are going to enjoy a real sociable Thanksgiving Dinner. Warden ROBERTS has promised the boy the tid-bits of the best turkey in the lot, and JOHNNIE will divide evenly with Yip.

The success of every tentative measure in surgery or medicine is worthy of special thanksgiving. It enlarges the resources of suffering humanity, and whatever mends or obviates the afflictions of the race is a big step forward. It is to be hoped that this experiment will be a perfect success At all events, its attempt was fully jus tifiable. Johnnie and Yip both deserve
